INTERNATIONAL SEMINAR

Beyond Connectivity

WIRELESS SENSING

in mmWave and Sub-THz Bands

Communication and sensing over the same infrastructure

Propagation, channel modelling and ISAC architectures at mmWave and sub-THz: 6G networks that carry data and, with the same signal, sense their environment.

21–22 OCT 2026

Auditorium, PUCV Santiago Campus, Chile

Wednesday 21 October 08:30–17:30

Thursday 22 October 08:30–13:00

SEMINAR DIRECTOR

Mauricio Rodríguez, PhD

School of Electrical Engineering · PUCV

Speakers

INTERNATIONAL

Gil Zussman
Columbia University

Jinfeng Du
Nokia Bell Labs

Reinaldo A. Valenzuela
Nokia Bell Labs

Gustavo A. Siles Soria
UPB

BASED IN CHILE

Giorgio Siringo
ALMA

Rodolfo Feick
CCTVal, UTFSM

Miguel Gutiérrez Gaitán
PUC

Karel Toledo de la Garza
USACH
